

Learning Content Management

SumTotal Learning Content Management provides an integrated environment for developing, assembling, managing, and delivering personalized learning content. The solution provides content developers, including instructional designers and subject matter experts, the ability to rapidly create and deliver content to the web. SumTotal Learning Content Management provides formal, personalized, learning content delivery within a knowledge, information and content solution that includes informal learning, mobile delivery, portal access and content capture.

Rapid content creation for faster delivery

- Deliver compelling, highly personalized learning experiences to the web in a fraction of the time required by conventional tools
- Manage development and deployment of content
- Quickly search and locate content from other courses or organizations

Easy-to-use open authoring

- Build learning content without having to master complicated proprietary authoring tools
- Integrate content from popular products such as Adobe® Dreamweaver®, Adobe® Flash®, Microsoft® FrontPage®, PowerPoint®, and Word
- Incorporate SumTotal® ToolBook® content such as software simulations and advanced interactive content

The SumTotal Advantage

SumTotal Systems, Inc. is the global leader in complete talent management software that enables organizations to more effectively drive business strategy. Recognized by industry analysts as the most comprehensive talent management solution, SumTotal provides full employee lifecycle management, including a core system of record, on a single software platform for improved business intelligence. We offer customers of all sizes and in all industries the most flexibility and choice with multiple purchase, configuration, and deployment options.

How is SumTotal Different?

- **Most Experienced People:** SumTotal brings 15 years of Learning and Talent Management experience to the HR industry. With 25+ Million users and 1,800+ customers deployed in 156 countries across 39 different languages, we have the deepest experience in complex global deployments.
- **Most Innovative Vision:** SumTotal is a proven industry innovator. We were first-to-market with a complete talent management platform nearly a decade ago, and we have consistently delivered innovative capabilities to Learning Management buyers for years.
- **Most Complete Platform:** SumTotal is the only solutions provider that has all functionality across HR and talent processes in a single platform. Key capabilities – Learning, Performance, Compensation, Succession, Hiring, HRMS, Social Collaboration, and Analytics – all reside on a common and highly scalable technology architecture

Powerful assessment capabilities to evaluate performance and drive business

- Create powerful HTML-based assessments and evaluations without programming or scripting
- Track individual assessment answers in database for higher quality information
- Choose from a rich array of built-in question types, including true/false, multiple choice, single and multiple fill-in-the-blank, image map, and un-judged essays
- Utilize advanced assessment settings, including flexible database-driven question pooling, skipping, randomization, timed response and auto advance

Robust repository services to allow global collaboration

- Share and manage content among geographically dispersed users, leveraging design time features such as sophisticated search, version control, and check-in/check-out

Unparalleled, adaptive content delivery capabilities

- Provide personalized learning experiences and real-time remediation through dynamically adapting content delivery, based on navigation and interactivity rules
- Deliver to tens of thousands of users, including external users, with no impact on the learning management system (LMS)
- Deliver hybrid-learning activities that combine online content and CD-ROM or hard drive-based media

Unique tracking and LMS integration capabilities to improve learning performance

- Integrate seamlessly with SumTotal Learning Management for reliable content connectivity, security, session management, SCORM packaging, and integrated reporting
- Interoperate with any LMS based on standard (AICC/SCORM) interfaces
